Federation of Business Disciplines (FBD) has been a major source of multi-discipline programs for business school educators, bringing together the brightest minds to learn from one another, build credibility for the teaching professional and provide opportunities for networking, faculty development and enrichment. FBD's mission is to bring a new measure of excellence by emphasizing quality and cutting-edge research, identifying new approaches and ideas, and examining issues that confront the ever-changing teaching and learning environment.

You are encouraged to submit conceptual and empirical manuscripts, addressing timely and relevant issues in all business disciplines. You are invited to propose special sessions and workshops dealing with pedagogical issues. The approximate deadline for competitive submission is mid-September 2019.

FBD's member associations represent areas of accounting (SWAAA), business communication (ABC-SW), business information systems (ABIS), marketing (ACME), decision sciences (SwDSI), management (SWAM), case research (SwCRA), finance (SwFA), and economics (SSE) and guest association in entrepreneurship (ASBE). Each association issues its own finalized Call for Papers about its specific submission procedures and deadlines.

These general areas also provide the opportunity for you to benefit from the FBD conference if you teach and/or research in health care administration, strategic management, environmental management, public administration, legal studies, human resource management, information systems, administration and management, political science, and public and private management.

By joining the FBD community of academic disciplines represented above, you access the collective knowledge and experience of nearly 1000 members. You will have a great time networking, sharing research, and making new friends. Be an integral part of this Federation of Business Disciplines.
